## AUGUSTA BANKS HIT HARD BY ALEXANDER

### Liabilities of Cotton Firm Cause Amazement.

### SEVERAL BANKS ARE TOUCHED

**Much Sympathy Is Expressed for Bishop Alexander, Who Knew Nothing of Brother's Operations—Tom Alexander Reported in New York.**

Augusta, Ga., July 14.—Revelation of the financial embarrassment of the head of cotton factors of Alexander & Alexander, one of the largest in the south, develops discrepancies of about $1,000,000, following the disappearance of Thomas W. Alexander, head of the firm, and member of one of the most prominent families in Georgia.

Mr. Alexander left Augusta Saturday, after borrowing $200 from a friend, saying that he was going to New York. The following night his brother, Bishop Alexander, the junior member of the firm, received a telegram from him asking that his office be opened and three letters found there be delivered. One of the letters was to his partner, in which a statement was made of the financial embarrassment of the firm and saying that if Mr. Alexander was not back in Augusta by Wednesday, he would never be seen again. Another letter was addressed to a local cotton mill president, and a third to Mr. Alexander's wife.

The manner in which the money was secured has not been made known by the three banks who are the losers, except that it was in the shape of loans. The Georgia Railroad bank sustains a loss of $115,000, which was marked off its books and charged to the surplus and undivided profits accounts. The National Bank of Augusta loses $7,000, and the National Exchange bank $2,000.

The available assets of the firm amount to about $80,000, while the personal liabilities of T. W. Alexander, in addition to the amount of loans, is about $20,000.

In his letters T. W. Alexander states that he alone is responsible, that his brother knew nothing of the financial end of the business, and had nothing to do with it. Much sympathy is expressd for his brother.

#### Will Investigate Railroads.

Boston, July 14.—District Attorney Moran made public Friday his intention of investigating the railroad and the gas and electric light companies with reference to alleged violations of the public statutes by those corporations. Among the offenses charged to the railroads are the issuance of free passes to members of the legislature and discrimination against shippers in the transportation of merchandise. Mr. Moran announces that he has retained at his own expense the services of a special attorney to conduct the preliminary inquiry.

#### Several Injured in Wreck.

Chicago July 14.—The engine, express car and the combination car of the northbound Monon train from Cincinnati to Chicago, were derailed Friday south of Hammond, Ind. Aldeman, Chicago, was slightly cut; Engineer Holland, was slightly scalded. Fireman Otis Greves sustained a slight fracture of the right pelvic bone. A lady was slightly bruised on the right shoulder, refusing to give her name.

#### Railroads Employ Japanese.

San Francisco, July 14—Ten Japanese army officers are, it is said, to be given railroad positions on the Southern Pacific and allied roads. Three of the lieutenants are to be stationed at the San Francisco headquarters of the Southern Pacific, one at Portland, Ore., two are to be at Salt Lake, one at Los Angeles, one at New Orleans and two at Omaha. The object in sending these officers to this country is to have Japan, through their experience, improve her railroad service by American methods.

### LETTERS WERE "FABRICATED."

**So Says Handwriting Expert in Hartje Divorce Case.**

Pittsburg, July 14.—Dr. Marshall Ewell, the Chicago hand-writing expert, who testified Thursday that some of the letters in the Hartje case were "fabricated," was on the stand Friday morning and was severely cross-examined by Attorney J. Scott Ferguson, Hortje's counsel.

The ill feeling engendered between the two men Thursday was intensified and they had many angry tilts.

Dr. Ewell's attempts to be facetious at the expense of the attorney were

AUGUSTUS HARTJE.

frequent and Mr. Ferguson was obviously annoyed by them.

The mystery surrounding the arrest on Wednesday last of a man giving the name of "B. F. McElroy," was cleared when it was explained that he had offered to sell to Attorney John Marron, one of Hartje's counsel, five leters alleged to have been writen by Coachman Madine to Mrs. Hartje.

Marron turned him over to the police. The leters are now in the possession of the police.

### PURE BALLOT BILL IS PASSED

**Approval of Connor Bill Reaffirmed by the House.**

Atlanta, July 14.—By a vote of 103 to 58, the house of representatives on Thursday voted down the motion of Mr. Flynt, of Spalding, to reconsider its action of Wednesday, in passing the bill of Mr. Connor, of Bartow, to appropriate $100,000 for an agricultural college building at Athens.

Mr. Felder, of Bibb, called the previous question as soon as the gentleman from Spalding had made his motion for reconsideration, thus cutting off further debate except that which members indulged in, to the extent of three minutes each, explaining their votes for and against reconsideration of the measure.

By a vote of 111 to 3 the bill of Mr. Wright, of Richmond, to amend section 629 of the state code with regard to vote buying and selling and illegal voting was passed. The bill makes it a misdemeanor for any person to contribute money for the purpose of buying votes either in a primary or regular election, and by the terms of the bill those who either spend money, or receive it for such purpose are made competent and compellable to testify in court concerning any prosecution brought for violations of the act, except that the evidence of such persons may not be used against them except in cases of prosecution for perjury.

## FULL VINDICATION FOR CAPT. DREYFUS

### Supreme Court Annulls His Condemnation.

### HIS RANK IN ARMY IS RESTORED

**After Twelve Years of Persecution Dr. Dreyfus Is Completely Vindicated and Is Freed from All Charges and Accusations.**

Paris, July 13.—The supreme court Thursday announced its decision annulling the condemnation of Dr. Dreyfus without a retrial. The effect of the decision is a complete vindication of Dr. Dreyfus, entitling him to restoration to his rank in the army as though he had never been accused.

Captain Alfred Dreyfus of the artillery, a member of a wealthy Hebrew family of Alace, where he was born in 1859, was on October 14, 1894, arrested on the charge of communicating French military secrets to a foreign power. Two months later Dreyfus was tried by courtmartial and found guilty and Jan. 5, he was publicly degraded and deported to Devils Island, near Cayenne, French Guiana, there, apparently to spend the remainder of his life. The friends and relatives

CAPTAIN ALFRED DREYFUS.

of Dreyfus, notably his wife, always believed in his innocence, and devoted all their energies to the work of proving that he had been unjustly condemned.

Colonel Picquart, when he became chief of the intelligence department of the French army in 1895, examined the documents in the proceedings against Dreyfus and questioned the correctness of the proceedings, and continuing his investigation form the opinion that evidence appointed to Major Count Esterhazy as being the guilty man. Picquart determined to see that justice was done and there ensued a fight to preserve the honor of the French army.

When M. Cavaignac became head of the French war office, he read in the chamber of deputies several documents which, he said, proved the guilt of Dreyfus. Colonel Picquart, afterwards, charged that these documents were forgeries, for which he was arrested and degraded.

The decision of the court was read by the presiding judge, M. Ballot-Beaupre, president of the court of cassation, immediately on the reassembling of court at noon Thursday. The palace of justice was thronged by an eager crowd seeking admission to the court room. Captain Dreyfus will not present continuing his habitual reserve by by remaining secluded in his apartment, where he has hitherto been cut off from the outer world.

The scene as the decision was pronounced was one of impressive dignity. The court, consisting of 49 judges, gowned in flowing red robes, solemnly mounted the bench. Deep silence prevailed as the presiding judge read the lengthy decision, minutely reviewing the series of sensation events of the last twelve years and completely disculpating Dreyfus of all wrong-doing, freeing him of the accusation of being the author of the famous incriminating documents, on which the entire charge was founded and authorizing the annullment of the judgment of the Rennis courtmartial with the 50 newspapers to be chosen by Captain Dreyfus.

The reading of the decision lasted an hour and it was only at the close that the spectators realized the nature of the vindication. As the final determination was announced, there was a buzz of excited comment and some exclamations of approval which the court officers sternly repressed.

Matthew Dreyfus hastily dispatched a messenger to bear news to Captain Dreyfus and Madame Dreyfus.

## BABIES ARE DROWNED PLAYING AT PICNIC

### Merry-Making Occasion Turned Into Mourning.

### 8 CHILDREN PERISH IN RIVER

**Only One Little Girl of Party of Nine Survives and She Tells a Pathetic Story of the Death in the Murky Waters of the Stream.**

Cedar Rapids, Iowa, July 14.—Eight children at a picnic on a river bank only three blocks from home, went a wading Thursday afternoon. The smallest one slipped into a deep hole in the river, and in trying to rescue her seven others were drowned.

Among the dead are:
Lucile Sweeting, age 7.
Hazel Sweeting, age 14.
Gladys Sweeting, age 10.
Josie Sweeting, age 12.
Ruth Coyle, age 11, of Sioux City.
Clara Usher, age 16.

The Sweeting children lived with their father near Ellis park in the outskirts of the city. Clara Usher was the daughter of Sweeting's housekeeper, and the Coyle children were nieces, who were here on a visit.

Ruth Kiersey, the only survivor, said they were wading, when little Lucile Sweeting slipped into a deep hole. Hazel Sweeting rushed after her, slipping into the hole, then the next girl rushed after her, and so they kept trying to save each other until all of the girls except Ruth Kiersey had been drowned. She then ran home and gave the alarm.

Four of the bodies were quickly removed from the water, but it was too late to resuscitate them.

At 4 o'clock in the evening all of the bodies had been recovered, except that of Clara Usher.

#### Ten Years for Williams.

Judge Mitchell sentenced Williams to ten years in the state penitentiary. His attorneys have made a motion for a new trial and will again carry the case to the supreme court.

#### Disquieting Reports Afloat.

St. Petersburg, July 14.—Although the officials announcement of the retirement of the Goremykin cabinet is expected, within a day or two, disquieting reports were afloat in the lobby of the lower house of parliament Friday afternoon to the effect that the assassination of Admiral Chouknin at Sevastopol was being used at Peterhoff to influence the emperor to agree to a dissolution of parliament.

#### Terror-Crazed Hebrews Flee.

Warsaw, July 14.—It is estimated that no less than 40,000 Jews, old men, women and children fled from Warsay Thursday. Most of the able-bodied male Jews remained to protect their property. Many of the Jewish shops are closed. The houses of the Jews are empty. Intense depression prevails in the Jewish quarter. # SERIOUS ACCIDENT TO LAWSON MOOTY

## Fell From Top of Telegraph Pole and Fractured Jaw-Bone.

### ACCIDENT IS VERY PAINFUL

Young Mooty Employed as a Lineman For Western Union Telegraph Company—While Repairing Line Cross-Bar Broke With Fatal Result.

By reason of the breaking of the cross-beam of a pole of the Western Union Telegraph Company at the crossing of Roper avenue and the Atlantic Coast Line Thursday afternoon, Lawson Mooty, a lineman in the employ of that company, fell about twenty-five feet and sustained a broken jaw-bone and other bruises about the arm and shoulder.

Mr. Mooty is well known here, where he was reared, and is quite popular among the younger set with whom he has been associated. He was engaged in repairing the wires of the Western Union Company. The cross-bar at the top of the pole suddenly gave way, precipitating him to the ground. In the fall his lower jaw-bone was broken.

The young man was taken to the National Odd Fellows' Home, when Dr J. M. Dell was summoned and rendered proper assistance. Dr. Dell stated Friday that the condition of the patient is very painful, but that he is resting very well under the circumstances.

### MANN TO CHATTANOOGA.

Expects to Make Fine Thing Financially From Coming Peach Crop.

Senator A. S. Mann, land commissioner of the Gainesville and Gulf Railway, left Thursday morning for Chattanooga, Tenn., where he owns an immense peach orchard, comprising 120 acres, 2,500 trees.

Senator Mann is not much on pretensions, but it was learned that he had received a telegram from the manager of his orchard stating that he had been offered $1 per crate on the trees. There will be about 6,000 crates, so it will be readily seen that the crop means a great deal of money to the owner. Senator Mann stated that he would not accept the $1 on the trees, as he expected to get $1.25, as the fruit, being exceptionally fine and of the Elberta variety, would bring easily that price.

Senator Mann proposes to return to Gainesville in a few days, when he will resume his work in building up the country in the proposed extenison of the Gainesville and Gulf railroad.

### Modest Claims Often Carry the Most Conviction.

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise, instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. What they do claim is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by all druggists.

### A Fine Meeting.

The local camp, Woodmen of the World, seems to be prospering and gaining membership. The members are quite active in securing a large membership, with the result that for the past two or three meetings there has been work. At the meeting of the Woodmen Thursday night there was work in the first and second degrees, after which the members enjoyed light refreshments, concluding with a smoker. A number of the most prominent citizens of the city are members of this order.

### Old Chronic Sores.

As a dressing for old chronic sores there is nothing so good as Chamberlain's Salve. While it is advisable to heal old sores entirely, they should be kept in a good condition, for which this salve is especially valuable. For sale by all druggists.

### A HANDSOME PRESENT.

Employer of W. R. Steckert Gives Acknowledgment of His Worth.

W. R. Steckert, land commissioner of the Cummer Lumber Company for the past few years, is a happy man, and he has a right to be.

Mr. Steckert was summoned a day or two ago to Jacksonville by his firm, as is frequently the case, on business. He responded to the summons, and put in his appearance in due time in the office of the Cummer Company. When the business had been attended to and he was in the act of leaving the place, W. W. Cummer called him, handed him a small piece of paper, with the remark that he had been a faithful and efficient representative of the Cummer interests "everywhere and at all times," and he desired Mr. Steckert to receive that "modest" present as a token of their regard for himself and his efforts.

Mr. Steckert is responsible for the statement that he "liked to have dropped dead" when he noted that the check was for $5,000. He is appreciative, however, and will remember the "small" present which his employer thought enough of him to give with compliments.

### A Tragic Finish.

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth McIver of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold, but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at all drug stores. 50c and $1. Trial bottle free.

### Will Keep Water Off.

In order to keep the water away from West Liberty street, a ditch has been ordered constructed in West Gainesville, which will divert the overflow from that thoroughfare, and keep the same comparatively dry. The authorities are determined to make West Liberty the street of the city, and every effort is being employed in that direction. This is no more than proper, however, as this thoroughfare will lead directly to the University grounds.

# NEW CANNERY HAS BEGUN OPERATION

## Several Hundred Cans of Tomatoes Were Preserved Tuesday.

### CAPACITY OF 10,000 CANS

One of the Largest Canneries in the State, Which Will Employ a Large Number of Hands if Products of Farm Can be Secured.

The Central City Cannery, of which W. L. Denham is manager, began operations Thursday afternoon, and several hundred cans of tomatoes were put up with great success. This cannery, which is one of the largest in the State, having a capacity of 10,000 three-pound cans a day, will give employment to a large number of hands, and will at the same time offer the grower a market for the products of the farm which he could not afford to grow.

Mr. Denham is very enthusiastic over the venture, and if he can secure the material, promises to make a good thing not only for the owners, but for the grower and the community as well.

It is the purpose of this new industry to keep its plant engaged as long as the material for canning can be secured. It is hoped that the growers will take advantage of this opportunity to market their products, which will mean a good thing for themselves, the enterprise and the community.

## A BIG DEAL.

### Wylie-Gabbett Company Sell Timber and Mill Interests.

Captain S. C. Tucker, representing for the past few months the trustees of the Wylie-Gabbett Company, manufacturers of lumber, based here, has returned to his home in this city.

The Wylie-Gabbett Company was at one time among the most extensive manufacturers of lumber in this section, owning vast acres of fine timber, pine and cypress. They "went to the bad," however, and the business was placed in the hands of a board of trustees to save the account.

A few days ago the three milling plants and about 45,000 acres of timber in Levy county was sold to parties in Duval and Nassau counties. The purchase price could not be learned, but it is said that the property brought between $75,000 and $80,000, which will be divided among the creditors.

# HOME COMFORT RANGES

## Josh Billings Said:

"I luv a roo-ster bekaws he ken krow, an' bekaws he has spurs to bak up his krow."

We claim that the Home Comfort is the best and most durable Range in the world, and here are the "spurs" to back up the claim:

THE ONLY GRAND PRIZE awarded by the Louisiana Purchase Exposition. Awarded by the group jury, approved by the department jury, affirmed by the supreme jury, and reaffirmed by the committee of five.

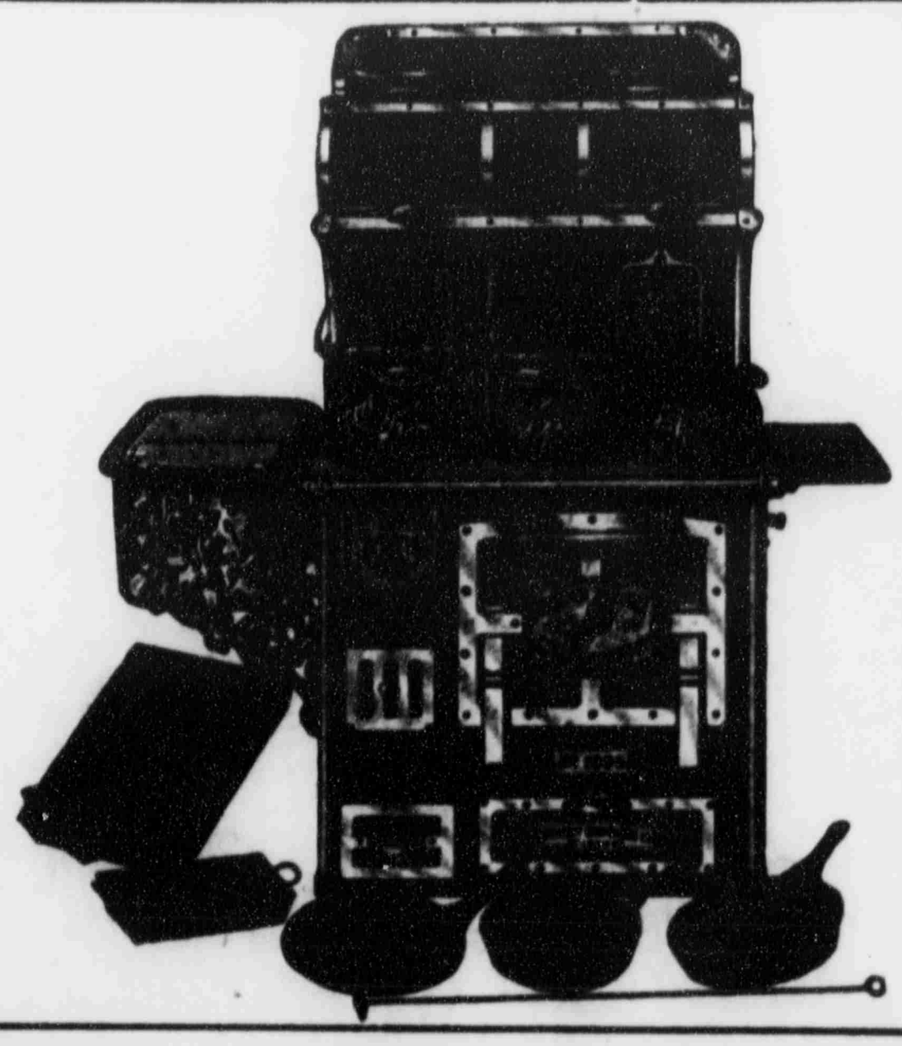
OFFICIAL RIBBON, World's Columbian Exposition. OFFICIAL RIBBON, California International Midwinter Exposition, San Francisco, 1894.

PREVIOUS AWARDS—27 highest diplomas, 16 gold medals, 1 silver medal, Industrial Exhibition, Toronto, Ont., Can., 1895. (The highest award, and only medal ever given on Ranges in Canada).

Orange Heights, Fla., June 25, 1906.
Wrought Iron Range Co., St. Louis, Mo.

Gentlemen: I have used the Home Comfort Range for years and they have given perfect satisfaction. I find that they are all that is claimed for them. I like them so much that I have just purchased a new one. That, I find to be far superior to any range I ever saw. I don't see what more could be added to their comfort, convenience and durability.

Yours truly, E. A. Jolly.



## What Prominent People Who Have Used the Home Comfort Ranges Say About Them:

Paradise, May 15, 1906.

To whom it may concern: This is to certify that I bought a Home Comfort Range from The Wrought Iron Range Company sixteen years ago, and have found it to be just as represented. It has been in constant use since I bought it and is as good today as when purchased, except the first joint of piping. This they replace free of charge. My range has at all times given perfect satisfaction, and is a great saver of fuel. If you buy one you will make no mistake. If my range had in any way given out I certainly would replace with another, as their salesmen are now in this county and the range they are now selling has great improvements over mine. W. A. Strickland.

Ellaville, Fla.

I have used the Home Comfort Range for ten years and it is in good condition and has given perfect satisfaction. I think it will last eight or ten years longer. I would not have anything else. They have the right name—"Home Comfort." Anyone buying will certainly get full value for money spent. M. T. Farnell.

I have used Home Comfort Range for twenty years. It has given perfect satisfaction. I have just purchased one of their Improved Ranges which I think a twenty-dollar better range than the one I have used. I would not be without one. They are the best ranges made. No one will make a mistake in buying one. It is worth the money. G. S. Lagrone.

The number of marriages in San Francisco since the disaster would indicate that an earthquake can beat Cupid a mile in shaking proposals out of timid young fellows.

Hubert D. King, an old Gainesville boy and former student of East Florida Seminary, has been elected president of the City Council of Tampa. He is a son of Henry B. King, formerly of this county, and is one of the rising young men of South Florida. Hubert's old friends in Alachua county are glad to note the rapidity with which he is climbing the political ladder.

Fifty thousand dollars may not be sufficient to buy the Gainesville Gas and Electric Power Company's plant, but it is sufficient to erect a plant in every way its equivalent, if not superior. Take away the contract for lighting the city (or as we have said before, pretending to light it) and the Electric Power Company would be glad to sell for fifty thousand dollars.

The City Council seems to have overlooked the provisions of section 7 of the city charter requiring "the auditing, annually, by an expert accountant not connected with the municipal government, of the accounts of each municipal officer handling moneys of the city," etc. If this section of the charter has ever been complied with The Sun has never heard of it.

Though long delayed, justice has at last been done Capt Dreyfus, the French army officer who was the victim of one of the vilest conspiracies ever perpetrated upon a human being. Unjustly convicted and subjected to the most humiliating degradation his persecutors could conceive of, it is surprising that he has lived to see his innocence proven and his honor vindicated by the annulment of the proceedings of the court which tried his case. He has been restored to all civil rights and his rank as captain by the supreme court, and the verdict ordered published in fifty newspapers to be selected by him. Capt. Dreyfus' devoted wife has stood by him throughout his trying ordeal.

One of the main arguments advanced by some people in opposition to local option is that whiskey is shipped into the county from other places and the city and county receive no revenue therefrom. Admitting that the argument is true, is it not equally true that other articles of commerce, such as wearing apparel, foodstuffs, furniture, etc., are imported without the city or county receiving the benefit of a license tax? The only way to stop the shipping of liquor into a dry county is by the passage of a prohibitory act by Congress, and many of the present generation will live to see the enforcement of such a law. The last Congress passed a law requiring the internal revenue collectors to furnish, on a demand, a list of United States licenses issued in dry counties for the sale of liquors, and under the Florida statute the possession of such license is prima facie evidence that the holder thereof is engaged in the sale of liquor.

## THE DEMOCRACY OF 1908.

That W. J. Bryan is to be for the third time the nominee of the Democratic party for President appears now to be settled. That he is the logical candidate is just as self-evident as the first proposition. In his announcement that he would accept the nomination if the Democratic party felt that it should again call upon him to lead it in another campaign, Mr. Bryan asserted that the issues and not the man were to be considered. That is a Democratic principle and one which Democracy should have adhered to in some of the campaigns in the past. But the people of the United States know Mr. Bryan so well, appreciate his great and steadfast adherence to Democratic doctrine, that the name Bryan alone would carry with it the understanding that Democracy intended making the fight, open, frank and with vigor in the interest of the people, as against the few plutocrats and that Democracy held the principles of the creed above the possession of what offices there are to be dished out every four years.

The overwhelming defeat of Parker in the last campaign ought to convince the National Democracy that there is nothing to be gained by catering to the enemies who endeavor to sneak into camp. That defeat of Democracy's candidate, when everything is considered, serves as a wholesome lesson. It demonstrates that the only way victory can be secured is by fighting along the whole line, battling for principles without concessions to any faction or clique.

In 1908 there will be an excellent opportunity for the success of the Democratic party at the polls. Growing confident and reckless, the Republican party has allowed its greed for plunder and for spoils to place it in a most unfavorable light and give to its opponent an excellent weapon with which to fight. If the Democracy accepts the situation and meets every issue manfully there is a bright prospect of success. There can be nothing gained by cringing. There can be nothing gained by making concessions to its enemies. To win, Democracy must conduct its campaign on a Democratic platform. If this is done Bryan will be our next President.

## THE ELECTRIC LIGHT OCTOPUS.

Gainesville is not the only place where the people are being robbed by the electric light combination, as evidenced by the following from The Newark (N. J.) News:

"Are the electric lighting companies also among the reformers? It would seem so, for at the convention of the National Electric Light Association at Atlantic City the keynote of one of its most important sessions was 'A square deal for the public.' Every address delivered on that day touched approvingly on this subject. Every delegate to the convention concurred in the recommendation that the 'square deal' policy was the one upon which all electric lighting companies must henceforth rely if they hoped to be successful.

"'Make municipal ownership unnecessary,' urged Mr. Blood, the president of the association, 'by giving service and rates acceptable to the public.' 'Don't wait for your customers to make complaint about the service,' said another representative delegate. 'Call them up regularly and inquire if they are satisfied. Be liberal in the little things, like repairs, and even in the big things, like lamp renewals. Get their confidence, respect and co-operation, and the question of municipal or private ownership will be solved.'

"This is a remarkable double confession, and coming from such a source is astonishing. It is equivalent to saying, in the first place, that if public corporations dealt fairly, squarely and honorably with the public there would be no ground whatever for any movement in favor of municipal ownership of public utilities. It is a confession, in the second place, that public service corporations have not hitherto dealt honestly and honorably with the public, and therefore, and for no other reason, the sentiment in favor of municipal ownership is already deep rooted and is gaining ground so rapidly as to startle the private purveyors of electric lighting.

"There is a third confession, implied rather than uttered, and it is this: The policy of greed, of unfair dealing, of beguiling the people into yielding valuable privileges, which become interminable contracts and then rendering them inadequate and abominable service, must be abandoned. It has been carried so far that the National Electric Association openly and emphatically declares against it, lest the business of electric lighting to private corporations is ruined by municipal ownership.

"The simple truth of the matter is that electric lighting corporations are frightened, and well they may be. For years they have demanded exorbitant rates, seizing every opportunity to get every dollar that could be squeezed out of the people and giving them the least possible return. They have stifled all competition by buying up rival plants. They have opposed all legislation advantageous to the people if it interfered with their schemes to exact excessive rates. They have corruptly interfered with politics. They have been anything but liberal with the people in great things or in small, and now, at last, they begin to see that a 'square deal' for the public is their only safety.

"The national association did well to make these confessions and utter these truths in New Jersey. Already the cities of Newark, Paterson, Passaic, Camden, Elizabeth, Perth Amboy, New Brunswick, Plainfield, Kearny and South Orange have been compelled to seriously consider municipal ownership as a means of evading excessive charges for public lighting, and the result has been the offer, by the Public Service Corporation, of material reductions in prices as inducements to secure further contracts. This is itself significant of the treatment the public has received. The Legislature, urged by numerous municipalities, passed laws for the express purpose of enabling cities to escape extortion by building their own lighting plants. Municipal ownership has in the past year or two assumed an importance never before known in New Jersey, and the reason is at last fully and frankly acknowledged by the National Electric Lighting Association. It has been made necessary by the unwillingness of the lighting corporations to give 'acceptable service and rates;' it has been forced upon the people by the persistent refusal to give consumers a 'square deal.' It has proved a perilous policy."

## INCOME FOR MARRIAGE.

The Chicago Commons has decided that an eligible young man who has saved $500 and met a young woman whose training at home, in school and possibly at social settlements and similar institutions has fitted her to do her part in the making of an attractive home, can afford to "pop the question" and ask that the day be named.

In the absence of exact statistics it is safe to guess that considerably less than half the families of Chicago live on considerably less than half of $100 a month. The average income of families in the United States is less than $500 a year.

It is demonstrated by means of tables and diagrams that on a salary of $100 a month a married couple can, under the circumstances named, not only live comfortably in a five-room flat, but save $300 the first year toward a home of their own.

Really, income is the least important thing in happy marriage, and has been such ever since the red roses of love first began blooming in the human heart. The things absolutely essential to the happy home are strangely few. Chief among them are labor and love. Neither of these costs money. But both of them often fly from it.

## ITALIANS WILL HARDLY DO.

At Jacksonville a manufacturer of naval stores and lumber has been held to answer to the United States Grand Jury on the charge of peonage. It was claimed by the Government that the defendant had instructed the foreman to hold a number of Italians who had been imported from New York and to force them to work until they had at least paid to the company the cost of their transportation, which was specified in the contract. The evidence was to the effect that the foreman had followed the men from the mill, overtaken them and by force compelled them to return to work. When the men did get away, they went to Jacksonville and preferred charges of peonage.

This is only another lesson to the employers of labor in this State. It is evidence that the Italian is not a trustworthy, honest, nor faithful kind of a laborer to have about the place. This has been demonstrated in the past, when some of the manufacturers of lumber or of naval stores have made an effort to work this character of labor in this State. It has been made evident that the Italians are not the kind of people to have in Florida, and that they cared as little for their obligations as they do for cleanliness. It is true that the Italian as a rule is a pretty good class of citizen. But that is not the class we have been able to import as common laborers to this State. They are, as a rule, the riff raff and constitute a class which have been employed on the railroads and who are not thrifty or industrious.

Some of those who have made an effort to employ the Italians who are brought to this State say that they are given to making trouble wherever they go. At Dowling Park, where a lumber man endeavored to get a large number of them to work, they commenced upon their arrival to make trouble and would only work when they felt like it. The gentleman who employed them says they would not do, and he at once paid them off and cast them adrift. They returned to New York and said as they were leaving, that they did not like the character of the work here nor the climate.

All this demonstrates that there will have to be another class of laborers given a trial. The negro is passing away from the mill, the farm and the still. It is only a question of a few years when it will be impossible to carry on the various industries of the South unless more labor has been imported. But in the meantime the labor question is a problem, and will continue to be for some time to come.

And now Madison county will vote on the question of "whiskey or no whiskey." Those who are setting up the old thread-bare argument that if whiskey is voted out the town of Madison will go to the "demnition powwows," should visit Gainesville and note the rapid strides this town has made during the past three years. It may injure business for a while, but in the long run you will never regret having voted out the saloon.

## TELEPHONE EXTENSION.

**Southern Bell Will Extend Its Lines to Various Points in City.**

The Southern Bell Telephone and Telegraph Company expect to increase their already handsome business in this territory, and with that view the company has sent from Atlanta W. H. Adkins, general sub-license agent, and Mr. Blair, one of the valued employes of the construction department, to look after their interests here.

Through the energy of this company the people have been enabled to use telephone correspondence to all principal points in the country, which is a convenience enjoyed only by important points. This is alone a guarantee that Gainesville is looked upon by the outside world as one of the principal cities of Florida, only a few of whom enjoy these privileges.

The business of the Southern Bell has been extended to such proportions that it has become necessary to extend its lines in this vicinity, and it is for that purpose the representatives of this company are here. They propose to give the public the best service possible, and a service that will be appreciated.

From what we can understand of the sub-license contract of the Southern Bell, this company offers to the independent operating companies a fine proposition, for it has made it possible for the independent companies to obtain the benefit of the vast long-distance system of the Southern Bell without concession, but merely on a co-operative plan, for the convenience of patrons of both companies. There are at present more than 220 different companies, representing about 30,000 stations, on this list.

## AN OPEN LETTER.

**The Baird Hardware Company to Those Interested in Ranges.**

Mr. and Mrs. Range Buyer:

We have just learned that the representatives of the Wrought Iron Range Co. have been arrested for doing business without having paid a license.

We believe that every dealer, either resident or foreign, should pay every tax the State and county imposes, still we assure you that this firm had nothing to do with the arrest, and regret that they failed to pay the tax that we pay cheerfully.

In our advertisement we intended to call your attention to the fact that we had a range heavier and better than others, and that as we did not have the additional expense of fully a thousand dollars a month, we could sell ours for $50 while, to pay expenses, they had to charge you $76.

Many range users saw the difference, and during the past two months we have received and distributed one more car than they brought here, we having been obliged to buy four cars, three of which have come. (We never pad our figures, the other is promised for shipment this week).

We find no fault with competition where we give better value for $50 than they can for $76, and would not raise objection, even though we help pay the taxes, and they don't.

Our ranges at $50 are here for inspection, and you can judge whether or not you want the $26 difference.

We give you the choice of several styles, the one at $50 being the highest in cost. We guarantee ours, and are always here if they fail to do all that we claim.

## Often The Kidneys Are Weakened by Over-Work.

### Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root**, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

### THE CHINAMEN'S STRIKE

Was Settled Without Difficulty, After Week's Time Lost.

The strike among the recently imported Chinamen at the Chase naval stores farm, Paradise, has been amicably settled, after a week's contention between the "bosses" and the men.

There was really no reason for this strike, as the Chinamen after a time agreed. It appears that the manager of the farm, as much for the good of his men as for the benefit of the business, decided that the men should go to work an hour earlier in the morning, but that they should take two hour instead of one during the hot noon hour. The Chinamen did not understand this proposition, but when it was finally explained to them clearly, they willingly returned to work.

Everything is running smoothly again at this farm—and everybody seems satisfied.

### The Smile

That won't come off appears on baby's face after one bottle of White's Cream Vermifuge, the great worm medicine. Why not keep that smile on baby's face. If you keep this medicine on hand, you will never see anything else but smiles on his face. Mrs. S——, Blackwell, Okla., writes: "My baby was peevish and fretful. Would not eat and I feared he would die. I used a bottle of White's Cream Vermifuge and he has not had a sick day since." Sold by W. M. Johnson

### Lottieville Notes.

Lottieville, July 12.—Lottieville is a little town on the J. & S.-W. railroad, about half way from Trenton to the Suwannee river. We have one dry goods and grocery store owned by O. G. Barker, one of our most popular men. We have a postoffice, sawmill and cold drink stand. Our little town is on a boom now. Three families have just moved in, Ed Slaughter and family, C. W. Colson and family, and Walter Hillard and family, and more are expected soon.

Sim Cambell's family of Trenton, but now of Lottieville, have their dwelling nearly completed, and will move soon.

Mrs. O. G. Barker and little son, Singleton, and mother, Mrs. White, have gone to Thomasville, Ga., where they will spend a few weeks visiting friends and relatives.

Mr. and Mrs. L. V. Polk of Hague visited relatives here last week.

### Only 82 Years Old.

"I am only 82 years old and don't expect even when I get to be real old to feel that way as long as I can get Electric Bitters," says Mrs. E. H. Brunson of Dublin, Ga. Surely there's nothing else keeps the old as young and makes the weak as strong as this grand tonic medicine. Dyspepsia, torpid liver, inflamed kidneys or chronic constipation are unknown after taking Electric Bitters a reasonable time. Guaranteed by all druggists. Price 50c.

### MADISON WAS VICTORIOUS.

Played Oak Halls Seven to Nothing Thursday Afternoon.

Special to The Sun.

Madison, Fla., July 12.—The Madison and Oak Hall teams met on the diamond here today, but the Madison team, being employed professionals, were too great for the Gainesville boys, with the result that the score was seven to nothing. There was no game at Monticello Wednesday, on account of rain. SANDIE GRAHAM.

### Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes, and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." J. W. McCollum & Co.

## THE REBEKAHS ARE HOME.

Have Returned From Jacksonville Where They Instituted New Lodge.

Grand Secretary and Special Deputy A. M. Cushman, of the Independent Order of Odd Fellows, together with his degree team of Colfax Rebekah Lodge No. 2, returned Friday afternoon via the Seaboard Air Line from Jacksonville, where they have been to institute a new lodge of the Rebekahs, to be known as Florida Rebekah Lodge No. 1.

Upon their return to Gainesville the degree team, which worked with great accuracy and honor in Jacksonville, were tendered a reception after the regular meeting of Colfax Rebekah Lodge, when light refreshments were served, and a general social time was experienced.

The members of the degree team which visited Jacksonville were as follows:

During the stay in Jacksonville the young ladies enjoyed themselves by visiting the various places of interest and calling on Jacksonville friends.

After the business session held in the I. O. O. F. hall, delightful refreshments were served.

## MEETING OF MACCABEES.

A Rousing Meeting of This Order Was Held Friday Evening.

The local temple, Knights of the Modern Maccabees, held an interesting and largely attended meeting in the P. O. S. of A. hall, East Union street, Friday night. Notwithstanding that the order is comparatively young here, having been organized only about six weeks, it has already become in membership one of the strongest in the city, and those who belong to the lodge are manifesting a deep interest in its work.

District Organizer A. C. Hamrick of Jacksonville, who, with Governor Broward, represented the order of Florida at the great camp convention, held in Port Huron, Mich., was present at this meeting, and made a very impressive talk on the order, together with the work which had been accomplished at this convention. In all, the meeting was a great success, and every fellow felt good that he was a Maccabee when the lodge closed.

## MR. ROGERS IS GRATEFUL.

The Baptist Pastor Extends Thanks to All the People.

Dear Sun: Through your kindness I desire to give some expression of my deep gratitude which will no longer stay, to my friends and the city of Gainesville, and even beyond, who have shown so much sympathy and interest and such manifest kindness to my home, my dear wife and children, during my recent illness.

"Cast thy bread upon the waters, and thou shall have it after many days," says the Blessed Book; but in all my efforts to comfort, help and relieve the unfortunate whom I may find, no thought of such kindness returned in the after days ever occurred to me, but the manifest sympathy extended me, the thoughtful deeds of help rendered my dear wife and the many little acts of loving kindness fills me with a depth of gratitude which in my weakness almost overcomes me.

There are many whom I must thank in person, whom it would either embarrass, or not be proper to speak of here. The constant and careful attention of Doctors Colson and Hodges will never be forgotten. Those who took daily care of the little ones, and rendered my wife so much and otherwise, shall be rewarded if my love and gratitude can ever repay it.

The manifest interest of my brother pastors binds me closer to them, and the sweet spirit and kindness of Brother Corr in filling my pulpit has won my heart forever.

I am so weak I can write no more now. God bless my people, God bless my friends and God bless my town.

S. B. Rogers.

Gainesville, Fla., July 13, 1906.

## A NOVEL AFFAIR.

Mrs. R. H. Arnold, desirous of giving the members of the local lodge, Woman's Christian Temperance Union, a treat, invited its members to an old-fashion country dinner at her home in New Gainesville Thursday. A large number availed themselves of the opportunity, with the result that many partook of something as novel as it was tempting. Mrs. Arnold personally looked after the serving of the dinner, which embraced everything good to eat from the farm, and altogether the occasion was a most enjoyable one. Those present are under obligations to Mrs. Arnold.

The population of the city of Van is represented to have been nearly destroyed by the Turkish troops who pulled down houses, assaulted the women and acted generally like wild beasts.

# SORES That REFUSE TO HEAL

There is no surer evidence of a poisonous, polluted condition of the blood than that manifested by a sore that refuses to heal. Every symptom suggests pollution; the discharge, the red, angry flesh, the inflammation and discoloration of surrounding parts all show that the ulcer is kept open by a constant drainage through it, of impurities from the blood.

When the blood is pure and healthy any cut, bruise or wound will heal readily; when from any cause, however, the blood has become infected with germs or poisons the place becomes a sore or ulcer, sometimes scabbing over, but never fully healing, because it is kept irritated and inflamed by the impurities in this vital fluid. Often the rough handling of a wart, mole or pimple which has never shown any sign of trouble, a slight scratch or abrasion of the skin or insignificant hurt of any character will become a sore that refuses to heal, and remains for years, eating into the surrounding flesh, resisting treatment and sometimes terminating in Cancer.

I want to recommend your S. S. S. to any who are in need of a remedy for an old sore. In 1877 I had my leg badly cut by a barrel hoop and having on a blue woolen stocking my leg was badly poisoned from the dye. A bad sore formed and for years no one knows what I suffered with the place. Nothing would heal the ulcer and I thought I would have to go through life with a discharging, angry sore on my leg. A short while ago I commenced to use S. S. S. and I soon saw that the place was improving. I continued the use of it until my leg was entirely healed and I am now a well man.

JNO. ELLIS.

250 Navy St., Brooklyn, N. Y.

I had a large sore or ulcer on my face and nothing that I tried would benefit me. It began with shooting pains and soon the itching was terrible. At first it discharged a watery fluid which changed to a thicker composition and the pain was very severe. It was nearly as large as a dollar and terribly inflamed in all the surrounding parts. It had been there so long and growing worse all the time, I became very much discouraged and alarmed. At last I began the use of S. S. S. At first the ulcer seemed to get worse, but soon I noted an improvement and continued its use until it was entirely cured.

MRS. W. A. WRIGHT.

Gary, Fla.

The poison in the blood may be the remains of some constitutional disease, the effects of a long spell of sickness leaving disease germs in the system, or the absorption of refuse matters of the body which have not been properly expelled through the channels of bodily waste. But whatever the cause the vitality and purity of the blood is so weakened and polluted that it cannot properly nourish the system, and the sore or ulcer is kept up.

Those most usually afflicted with chronic sores and ulcers are persons who have reached or passed middle life; the vitality of the blood and strength of the system have naturally begun to weaken and the poisons in the blood which perhaps have been inherited and lain dormant in the system for years cannot be as effectually held in check as in early life when the system was strong and vigorous. While the old or middle-aged are the usual sufferers, the young are not exempt if the blood becomes infected with the germs.

Salves, plasters, lotions, etc., cannot cure old sores and ulcers because they do not reach the seat of the trouble. Such treatment keeps the place clean, relieves pain and perhaps reduces the inflammation, and in this way is beneficial, but can never permanently heal them. The only treatment that can do any permanent good is a competent blood purifier, one that goes to the very root of the trouble and removes the cause, and for this purpose nothing has ever been found to equal S. S. S. It goes down to the very fountain-head of the disease, drives out all poison and morbid matter, builds up the weak, sluggish blood, gives energy and strength to the entire system, and allows the sore to heal naturally and permanently. S. S. S. is purely vegetable, being made of roots, herbs and barks possessing cleansing, healing properties, and is not only the King of blood purifiers, but the greatest of all tonics. If you have a sore that is slow in healing do not waste time with external treatment nor experiment with unknown medicines, but begin the use of S. S. S. and by removing every vestige of the cause, cure the trouble permanently. Special book on sores and ulcers and any medical advice desired furnished without charge to all who write.
